### Safety

- For the show, have all the curtains on the ice so that there is enough room for all of the skaters so they have enough room to get on the ice, warm up, and not collide with the door hook.
- During practice before the show make sure there is someone out there to watch the kids and remind them to be careful and watch for other skaters
  - Have a volunteer
- When there are all the kids for the big numbers there isn't enough room for the little kids and the big kids to safely step on the ice and have enough room.
  - Maybe purchase another curtain/ more polls and curtains

### Rexburg ice

- Please be kinder to the Rexburg staff and do not talk about the ice conditions at the Rexburg rink.
- They are very close to dropping us as a client if they keep hearing complaints at the rink.
  - We want to be able to use this rink in the summer.
  - Send an email out about not talking bad about the rink when at that rink
